The Daily Post-Athenian and The Monroe County Advocate & Democrat are proud to present The Medical and Health Directory. It is our hope you will find the information contained in the Directory useful when you are selecting health care. The Directory will enable you to make a more informed decision in identifying a health care provider. A photograph and professional information will provide you with important details on his or her education, credentials and affiliations. In addition, valuable information is included on many other healthcare facilities, services and resources for your convenience.

Please place this Directory with your phone book so you'll always have this valuable information at your fingertips. This book will be useful until the Directory is published again next year.

Our area is fortunate to have such a wealth of medical professionals, health services, facilities and resources. We are delighted to present them to you.

Extra copies of The Medical and Health Directory are available at both newspaper offices or one of the local Chambers of Commerce. It can also be downloaded at www.dailypostathenian.com

Welcome to Chota

With three convenient locations in **Madisonville, Tellico Plains, and Vonore**, we are positioned to offer medical services of the highest quality, right in your neighborhood

Our Vonore and Tellico Plains offices are open Monday through Friday, 8:00am – 5:30pm. We are open in Madisonville **7 days a week** from 8:00am – 5:30pm, so should the need arise, we can take care of you on the weekends at our main clinic. We offer language translation services and video translation for sign language free of charge.

The friendly professionals at our clinics are able to perform all of the necessary **diagnostic testing** that may be required during your visit. All three of our clinics perform laboratory testing on-site. At our Madisonville location we have a top notch digital radiology department performing x-ray, DEXA scans, and ultrasounds.

Chota Community Health Services (CCHS) offers **24/7 after-hours on-call service**, so you can speak to one of our highly qualified medical providers, even when we are closed.

Our patients can also benefit from our **340B prescription drug discount program** that gives uninsured or underinsured patients access to discounts on prescription medications, through partnerships with our local community pharmacies. This also applies to patients in the Medicare donut hole.

We also have a **sliding fee discount program**, based on family size and income that can help significantly reduce the cost of your visit, if you qualify.

Chota Community Health Services offers **Behavioral Health Services** at our Madisonville office. We have licensed counselors as well as a Psychiatric Mental Health Nurse Practitioner who offer counseling and medication management to assist with mental health. We also provide substance use disorder treatment services, including Medication Assisted Treatment (MAT) in the form of Vivitrol, and an Intensive Outpatient Program (IOP).

We also maintain **partnerships with specialists** to bring their services to our county when possible. For example, Allergy, Asthma, & Sinus Center comes to our Madisonville clinic every week to provide allergy testing and services!
